

Colby Stewart, MD, FACS

Hello

Dear Patient:

Your optometrist has referred you to me for possible cataract surgery. My surgery coordinator will be contacting you soon to schedule an appointment for a consultation so that we may discuss your options.

In this folder you will find brochures describing cataract surgery as well as information on a number of lens implants available. You will also find some forms that need to be filled out prior to your appointment. Please bring the entire packet with you to your appointment, this will ensure your visit with us will be productive and time effective.

During your consultation you will have a complete dilated eye exam, as well as measurements in order to choose a lens implant. We will be scheduling for surgery after your evaluation. Please plan to spend about 2 hours with us for this visit.

Together with your primary eye doctor we will provide you with quality eye care.

Sincerely,

W. Colby Stewart, MD, FACS
